PAY TV REMOTE

EW-8360

Congratulations! Your Universal Remote Control (URC) is a state-of-the-art device which integrates many different infra-red remote controls to deliver instant A/V action to your fingertips.

Before operating the remote, please read thoroughly (1) the inside of the coversheet and (2) this manual. Then store them for future reference.

1 HOW TO INSTALL THE BATTERIES

Alkaline batteries are recommended. The number of batteries required is stated on the back of the coversheet.

1. Remove the battery cover on the back of your URC.
2. Check the polarity of the batteries and the "+/-" marks inside the battery compartment.
3. Insert the batteries.
4. Push the battery cover back in place.

2 HOW TO SET UP THE URC

By entering Device Code

You may setup the URC by following the code entering instructions.

1. Referring to the DEVICE CODE LIST, look up the 4-digit Device Code which corresponds to the brand of your A/V equipment. If there is more than one Device Code listed under your brand, start from the first code.
2. Press the desired Device Mode Key (e.g. TV).
3. Hold down "CH +" and "VOL -" on the URC simultaneously for 2 seconds until the indicator light under the power key lights up.
4. Use the number keys "0" - "9" to enter your 4-digit Device Code. The indicator should go out immediately.

Turn on your device (e.g. TV), then try the function keys on the URC. If your device (e.g. TV) responds to your activated function correctly, you have entered the right Device Code. Otherwise, repeat the above steps with the next available Device Codes until your device (e.g. TV) responds to your activated function, and most keys work correctly.

* Simply repeat the above procedures to enter the Device Codes for your DVD and AUX devices. (Remember to press the correct Device Mode Key in step 2 above)

Note:

If the indicator light under the power key flashes twice in step 4, a wrong Device Code has been entered. You are required to repeat step 2 to 4 again.

Suggestion :

- If you cannot find a correct Device Code for your equipment, see **2 HOW TO SET UP THE URC - By Searching Through the Library.**
- For future reference you are recommended to take a note of your Device Codes in the space provided on the product's back label after setting up the URC correctly.

3 OPERATING THE URC

Normal Operation

Once you have set up the URC for your A/V equipment, it works like your original remote control.
